

# Plate Boundary Flipbook

Lesson Title: Earthquakes

Page 1 of 2

Name: \_\_\_\_\_

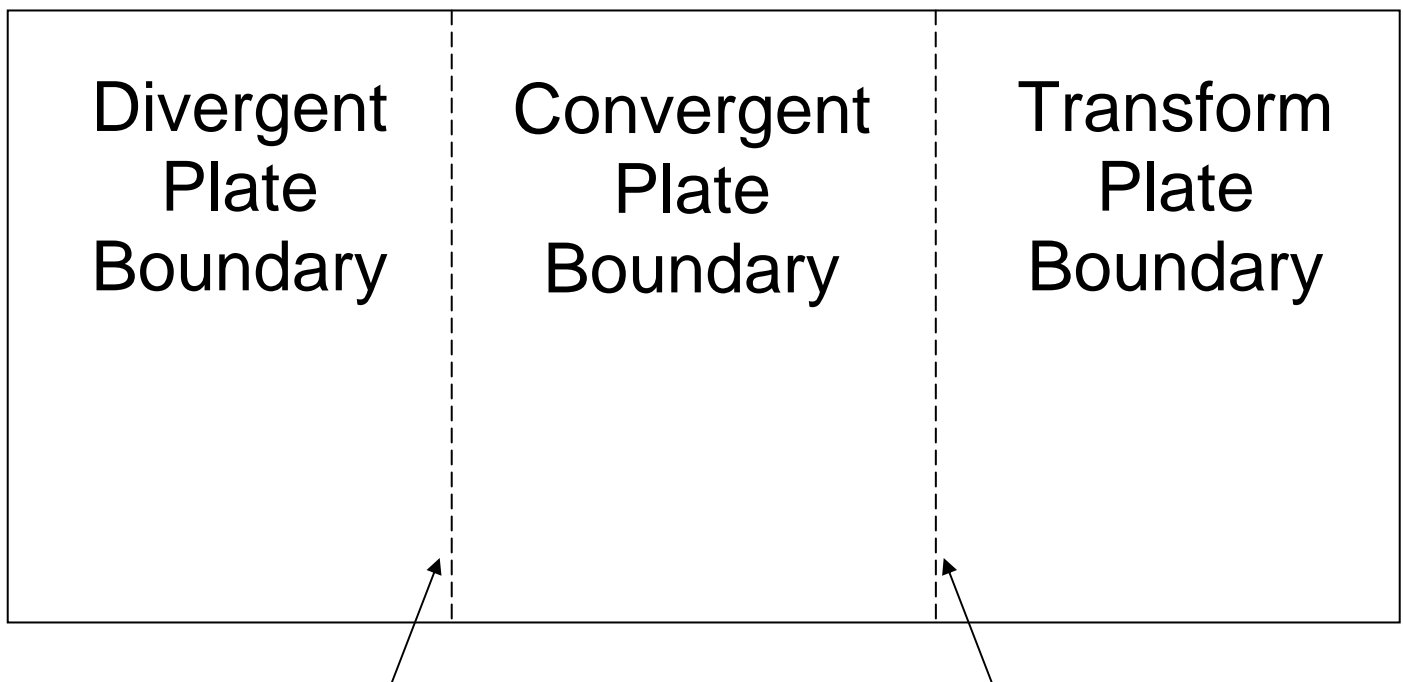

## Plate Boundary Flipbook

Take the next page and fold paper in along the dotted line. Then cut two slits from the edge to the fold along the dark lines as shown in the diagram.

On the outer flap, label the three types of plate boundaries. On the inside, draw a picture and describe and define each situation using the Understanding plate motions website:

<http://pubs.usgs.gov/publications/text/understanding.html#anchor15039288>

**Fold**

Cut slit along dotted lines from edge to inside fold.
