

Gene Puzzle Activity

Lesson Title: Gene Puzzles

Page 1 of 1

Name: _____

1. Look again at the *Finding a Gene on the Chromosome Map* on the Genetic Science Learning Center website (<http://gslc.genetics.utah.edu/units/disorders/pedigree/>).
2. Go to the *Find the Gene for Whirling Disorder* activity (<http://gslc.genetics.utah.edu/units/disorders/pedigree/mapgene.cfm>) and choose two individuals from among the 12 listed. These two will be the parents.
3. Color in the puzzle below to represent the genes for the offspring of these parents.
