

Lasers Saving Sight

Student Work Sheet

Name: _____

Read the article *Preserving the Miracle of Sight*. As you are reading, answer the following questions.

1. Name the two streams of research that contributed to the development of laser eye surgery.
2. What eye problems can be treated with laser surgery?
3. Describe how the retina works. Why is it so vulnerable?
4. What were some early techniques in treating a torn retina?
