

## Energy Projects

*Lesson Title: Power Play*

*Page 1 of 1*

Name: \_\_\_\_\_

**Once you have built your machine or system, respond to these questions.**

What energy source powers this system?

What is the purpose of your system?

Describe the energy transformation process of your system.

How do the different parts of this system relate to each other?

What kind of everyday tasks can this system help to accomplish?

What did you learn about energy from doing this project?
