

Salt: Up Close and Personal

Name: _____

Make a prediction: Draw a detailed picture of what you think a crystal of salt would look like under magnification.

Salt Data Collection Sheet:

| Observing Salt With... | Written Observation Describe what you see. | Drawing Draw a picture of what you see. | Make a Comparison Describe how your observation changed with each magnification. |
|-------------------------------|--|---|--|
| The Naked Eye | | | Since this is your first observation, there is nothing to compare it to. You don't have to write anything this time. |
| A Hand Lens | | | |
| A Microscope | | | |
| An Electron Microscope | | | |
